**American Owned
and
Operated**

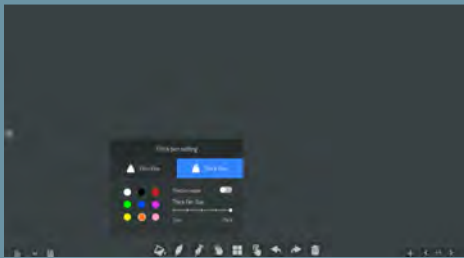

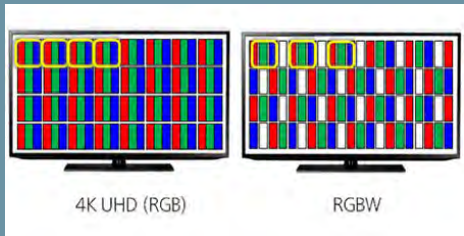

BUILT TO LAST — We strive to offer you the best value for your investment. Buying LiteTouch means buying **QUALITY WITHOUT COMPROMISE!** It always has—and it always will.

50,000 Hour Commercial RGB Display for a Longer Life and a Higher Quality Image

Why RGB and not RGBW?

While 4K UHD displays have four times more clarity than standard Full HD, RGBW TV's have a lower picture quality - in both pixel quantity and quality - than 4K UHD Displays. **RGBW reduces the number of pixels that can actually produce colors by 25%** — resulting in a lower quality, less detailed picture on the screen.

Up to **40 Points of Touch & Writing** for Simultaneous, Multiple User Interaction

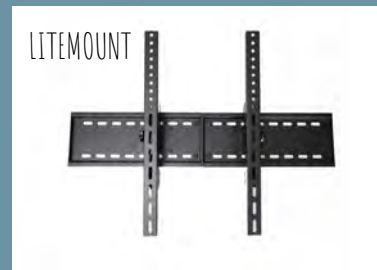

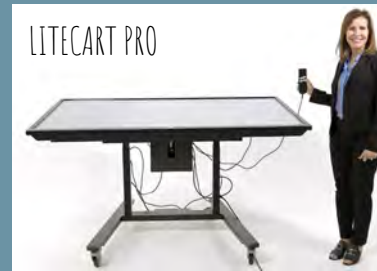

Fast and Responsive with **Zero Lag!**

Multi-Platform Robust Wireless Mirroring - **Control Your LiteTouch with Your Mobile Device** Quickly and Seamlessly!

Purchase a LiteTouch Pro or Pro+ and get a Windows 11 Pro PC built-in. Or **Upgrade Your Standard LiteTouch to a Pro at Any Time!**

MOUNTING OPTIONS

ACCESSORIES

4K Ultra HD ePTZ Camera with Facial Detection Auto-Tracking

Wireless Voice Enhancement and 100 Watt Speakers

OKTOPUS is an **interactive** presentation and **collaboration** software designed for use with your LiteTouch **interactive** flat panel **display**. Oktopus will work **over ANY content or application**, and it is provided **FREE** to all educational customers with no subscription fees required! Are you already using ActivInspire or SMART Notebook software? No problem! Oktopus will Open, Edit, and Play lessons exported from these applications.

About Us

Established in 1986, LTN Technologies began as a small, family-owned and operated, I.T. services and software development business, whose primary focus was on providing quality products and top-notch service that went above and beyond what was required. Since that time, a lot has changed, but the emphasis on quality and customer service has not. Now, solely a manufacturer of LiteTouch interactive flat panels, accessories, and video walls, LTN Technologies focuses on building high-quality hardware at an affordable price. We use the best components available to make all our products to provide our customers with hardware solutions that will last. And just in case something does go wrong, we back every LiteTouch we sell with an industry-leading 5-year warranty!

What Makes LiteTouch Different ?

- 1. Fastest Touch Response Time in the industry** -- Writing on a LiteTouch IFP is just like writing on a dry erase board, without the mess. Zero lag!
- 2. Brightest Screens in the industry** -- LiteTouch IFP's boast up to a 450 cd/m² screen brightness. The industry standard is only 350 cd/m².
- 3. High-Quality Displays** --The entire LiteTouch IFP product line comes standard with a commercial *50,000 hour, 4K Ultra High Definition RGB* display!
- 4. Great Sound** - LiteTouch IFP's include 50-Watt (2 x 15-Watt Front Facing + 20 Watt Subwoofer) room-filling speakers.
- 5. Improved Visibility & Strength** - LiteTouch IFP's are built with 4mm tempered anti-glare glass that is chemically-etched to create a smooth, glare-free surface so your screen will be visible in even a poorly lit environment.
- 6. Enterprise-Level PC's** (LiteTouch Pro & Pro+) -- LiteTouch built-in Windows 11 PRO PC's are engineered for the toughest of tasks and include an Intel Core i5 10500T Processor, 8GB DDR4 Memory, 500GB NVME SSD, WiFi 6 802.11ax, Bluetooth, and 10/100/1000-BaseT Ethernet.
- 7. Cost-effective** - We mean it when we say, "Quality Without Compromise." We work hard to keep our product quality high and prices low.
- 8. Custom PC's** – All PC's for LiteTouch Pro and Pro+ are custom assembled in our headquarters in KY.
- 9. Superior Camera and Microphone on LiteTouch Pro+** - Includes our LiteTrac 4K Ultra HD ePTZ camera with facial detection auto-tracking and long-range echo-canceling microphone system with a range of up to 35 feet.

Virtual Demos

At LiteTouch HQ, we have a studio available for on-line demonstrations of our products. To schedule a virtual demo, contact your LiteTouch rep or use the link on our website (*24 - 48 hours advance notice is much appreciated*).

Try Before You Buy

If you are interested in purchasing a LiteTouch but prefer to try it out before committing to buy, then you can take advantage of our "Try Before You Buy" program. With this, we ship a LiteTouch to you and give you up to 30 days to evaluate the unit and make sure it is a good fit for you before you make a purchasing decision. If you decide that LiteTouch isn't for you, you may return the unit, at your expense, at any time during the 30-day trial.
